*We provide information and resource as a beginning guide for the deaf/hard of hearing community.*

Helping Hands emerged as a response to the overwhelming needs that are a major factor in the daily lives of many.

These are some of the major barriers that many individuals encounter on a daily basis. It will make a HUGE difference in getting assistance thru effective communication, time management with each and every person. Often a person may only need some structured attention in order to resolve some common life problems.

- ~ Questions about personal affairs
- ~ Referral to gain access to services
- ~Instructions on commons problems
- ~Guidance and resolutions to situations
- ~Clarification and identifying issues

As a seasoned interpreter with over 25 years as a professional along with being a C.O.D.A. I found out at an early age that this has been the MOST sought after situation for our community of deaf/hard of hearing individuals.
